Fyodor Dostoyevsky (1821–1881) was a Russian novelist, short story writer, essayist, journalist and philosopher. His literary works explore human psychology in the troubled political, social, and spiritual atmosphere of 19th-century Russia. Many of his works contain a strong emphasis on Christianity, and its message of absolute love, forgiveness and charity, explored within the realm of the individual, confronted with all of life's hardships and beauty. His major works include Crime and Punishment, The Idiot, Demons and The Brothers Karamazov. Many literary critics rate him as one of the greatest and most prominent psychologists in world literature. His novella Notes from Underground is considered to be one of the first works of existentialist literature.

Customer Reviews

This is an excellent collection of the works of the great Russian novelist and writer Fyodor Dostoyevsky. It has all of his works, plus several excellent introductory essays, and it's all very nicely formatted for the Kindle and with very user friendly tables of contents so the reader can go from one work to another easily. In fact, after reviewing the contents of this collection carefully, I've come to the conclusion that this is an exemplary collection of Dostoyevsky's works, far more carefully put together than the vast majority of other similar volumes typically found for the Kindle. These are all works that are available in the public domain and from resources such as Project Gutenberg, but there is certainly enough value in what has been done to collect them together here and format them properly for the Kindle that a purchase price of just 99 cents is not only justified, it is a terrific bargain. In going through the contents of this volume, I found only one error or omission - the work "Pages from the Journal of an Author" is not complete and only the Introduction is included. It appears that this was likely an error by the publisher in pulling together this Kindle edition, and I will attempt to contact them and inform them of the error so that it hopefully be corrected. What I find exceptional about this collection is that it includes several excellent introductory essays at the beginning, and then it concludes with the full text of the biography written by Dostoyevsky's daughter Anna in 1921. No doubt there are also many other excellent works written about Dostoyevsky that are not included here (because they are not available in the public domain), but I certainly don't think that is a negative for this collection.
