Rapid German (Musical Brain Trainer) (v. 1). This is a terrific way to learn a foreign language . Music and rythm and repetition are used to cement words and phrases into memory. Put it in your car and listen as you drive.

I have many CDs and audiotapes with German content. I love to walk and study German. It is a hobby and not a "have-to." I was pleasantly surprised with the idea of music to help me remember German words and phrases. WOW, I would be signing along to the music and learning German at the same time. I think it is a wonderful idea as far as they have taken it. There just is not enough content on the CD. There are 10 categories but there is repetition between categories. I love the idea but would be happier if there was more substance. I have been studying German on my own and maybe I was just too advanced for this Vol 1. I also ordered Vol 2. I hope that I will be happier with that one. Time will tell.

This is no substitute for a class, but it's amazing how much German language you can pick up just playing this CD in the background. Highly recommend.

As expected - as advertised - delivered in a timely manner...

Don't bother with wasting your money here, this cd will not help you. Maybe if your a kid where its easier but no today
