French I, Grades K - 5 (Skill Builders)

Synopsis

Skill Builders are great tools for keeping children current during the school year or preparing them for the next grade level. A variety of fun and challenging activities provides students with practice and helps introduce basic skills to new learners. This full-color workbook contains appropriate passages and exercises for elementary French language learners. Skill Builders combines entertaining and interactive activities with eye-catching graphics to make learning and reviewing fun and effective. The compact 6" x 9" size makes this book perfect for school, at home, or on the go. It features 80 perforated, reproducible pages and an answer key.

Age Range: 5 - 10 years

Grade Level: Kindergarten - 5

Customer Reviews

This is a lovely, colorful skill building (vocabulary building) French exercise book for young children! I photocopy the pages for my kids, and my kindergartner, first grader, and third grader all enjoy completing the exercises in this book. I have bought a few French workbooks for this age range, and this is our current favorite.

Good book. I was hoping it would be larger - 8.5 x 11 overall so that my Kindergartener and Second Grader could write easier on the worksheets. The worksheets were not plentiful, but the vocabulary

was good.

This is a GREAT resource for children learning French, but I wouldn't recommend it as a resource until your child is able to read/write. Otherwise, great pages to supplement your lessons! We homeschool, and will be using this for sure when my child is reading and writing.

Bought this book for my daughter who will be starting at a French immersion school next year. She will be going into grade 1, and I think this workbook will help learn the basics so she is not starting too far behind those who starting learning in kindergarten. It gives you phonetic break down of the French words, so I find that helpful for my husband to help her as an anglophone. I recommend making copies of each page or doing the activities in pencil, so that your child can repeat them over again; as the workbook seems to move into different areas pretty quickly.

My son and I have been working on French with several programs for about 2 years now, predominately through auditory methods. Now that he can read and write, I chose this book to work on those skills. We are very pleased with it so far. We did the first 8 pages in one day, most of it review from what we already knew (alphabet, numbers, colors), but the well laid out visual workbook really took us to the next level. We learned numbers 11-20, spelling them and saying them (something we've been working on for a few weeks and got in the one day with this book). My son and I give it 2 thumbs up.

VERY GOOD BOOK FOR TEACHING MY 5 YEAR-OLD STUDENTS ... VERY EASY TO READ ...
EASY TO UNDERSTAND WITH COLORFUL IMAGES TO ILLUSTRATE EVERY NEW WORD ...
VERY EFFICIENT TO ATTRACT LITTLE KIDS THAT ARE NOT REALLY INTERESTED TO
STUDY ... BUT RATHER PLAY ... AND ITS PRESENTATION IS JUST LIKE A HAPPY AND
FUNNY WAY TO LEARN. I LIKE IT AND MY YOUNG STUDENTS LOVE IT SO IT IS THE MOST
IMPORTANT FOR ME ... THANK YOU ... DBA

I bought this so i have somewhere to start. It is a good if your a visua learner and i love that it shows you how to pronounce everything which is something i struggle on. Its only about 80 or so pages but for the basics and small details like getting to know your colors, numbers, and seasons. it isn't bad!

Very thrilled with the content and the age range this curriculum offers. If you buy this be sure to buy

Carson-Dellosa's French Elementary Reproducibles that got exactly with this work book.
