Customer Reviews

Alone, this is a wonderful book that teaches time telling very concisely and on a good level for children. As an addition to a Spanish curriculum, it's quite good - it proves to the student that telling time is useful, not difficult (with repetition), is presented in a bright new way that engages the student - and as other reviewers have pointed out, the parent as well! Using it with Flip Flop Spanish: Ages 3-5: Level 1, both my children and students have enjoyed this book.

I enjoyed reading this book to my two young children and was impressed at the ease that it contained in the teaching of Spanish. My kids were able to grasp the language and had no difficulty in learning it. Not only did I enjoy the book they did. Even though it's written on a Pre-school level, I am able to refer to it from time to time and I too am learning the language. I have read other books by this author and will continue to build my library with her books. I am glad to be able to learn Spanish myself, and have my children enjoy learning it to.

Well made book, strong enough to endure a child's handling. We enjoy it together. I read and then my little one repeats the words. First we do it in English and then in Spanish. I point at the words as I say them, and he imitates me. He likes it. Nice clear drawings. I recommend it.

Simple and easy to read--repetitive. The book is sturdy and colorful. You can learn a limited amount of Spanish by reading it over and over again.

I like these books for my son who is 2 years old. A babysitter comes once a week to teach him spanish and these books are a part of his learning experience. I highly recommend them.
