Customer Reviews

Fantastic supplement to the Text. Daughter is going to grade 1 in the fall so we are doing the book over the summer. Great job of having more problems to do as difficult concepts arise. Definitely glad we started this now.

Great for assessments , helping with lesson plans , and giving individualized instructions for my special education class of Autistic students.

Such a help for extra practice for my daughter and also as a tool for me to learn Common Core math techniques.

It was similar to what my child uses in school.
